

Designer

Role Description:

The Designer is responsible for delivering maximum value to our customers by converting floor plans into bespoke heating designs that are easy to install, operate and efficient to run.

Responsible to: Commercial Fulfilment Supervisor

In this role you will be expected to be passionate and driven to deliver bespoke heating solutions to customers within a leading underfloor heating design team.

With an understanding of AutoCAD you will further develop your knowledge to continuously look for ways to improve our design process to deliver greater value to our customers as part of our organisations continual improvement culture.

As an organised individual you will be expected to manage your own workload whilst putting the needs of the team above your own. You will also have a keen eye for detail to ensure that the designs you have completed meet your own high standards, whilst being compliant with legislation.

Key Responsibilities	Activities
<i>Produce Design</i>	<ul style="list-style-type: none"> Draft property floor layouts in line with information provided from our customers in AutoCAD Create system installation schematics in the form of underfloor heating tube layouts in AutoCAD Create heat loss assessments of properties in our in house design software Produce a bill of materials ready for shipment Achieve personal targets as set by the company, adapting as necessary to a fluctuating workload
<i>Quality Control</i>	<ul style="list-style-type: none"> Ensure that the finished design is easy to install and runs in an efficient manner Check that renewable technologies, such as Heat Pumps, are sized appropriately for the property and meet government legislation Ensure that the correct materials are used for customers to have an effective heating system, whilst minimising waste Ensure that the quality of the finished design meets our companies core values
<p><i>Other Duties:</i> <i>The list of job duties within this description is not exclusive or exhaustive and the post holder will be required to undertake such tasks as may reasonably be expected within the scope of the post.</i></p>	<ul style="list-style-type: none"> To participate in the company's appraisal process To undertake relevant development and training. To be responsible for the health and safety of self and others. <p><i>Job descriptions will be reviewed regularly to ensure they are an accurate representation of the post.</i></p>
