

Business Development Manager

Role Description:

To source and develop leads and enquiries, in order to create opportunities to deliver a sustainable stream of business to Nu-Heat. Identify and qualify potential prospects through telephone contact, and email correspondence ensuring that targets and conversion rates are achieved.

Responsible to: Senior Business Development Manager

In this role you will be expected to maintain a required conversion rate of leads to quoted opportunities, through effective contact and relationship building with prospects. Your role involves developing relationships with installers, specifiers, i.e. architects, self-builders, building contractors and property developers to encourage them to do business with Nu-Heat.

You are expected to independently maintain a working knowledge of Nu-Heat products and those of competitors, and should have a broad understanding of the legislation affecting the renewable/UFH market. You need to have a high level of focus and motivation within the sales arena while maintaining an exceptional level of customer service, maximizing the potential of each lead.

You should be a team player, confident and driven to contributing towards the team targets and objectives. You should be determined, tenacious and focused on the task in hand as well as adaptable to the range of different customer types you will be dealing with on a daily basis. The role calls for a self-motivated person, able to deliver against call volume targets to make a real impact on Nu-Heat's sales performance.

You should advise the Senior Business Development Manager of your personal development needs and training requirements.

Key Responsibilities**Activities****Develop Leads and Enquiries**

- Proactively identify new business opportunities through your daily activity and win the opportunity for Nu-Heat to quote
- Qualify leads to ensure understanding of timescales, value and potential future business
